

**Ordinance No. \_\_\_\_**

**An Ordinance of the Board of Supervisors of the County of Sonoma, State of California,  
Adding Article XXVI to Chapter 2 of the Sonoma County Code to Provide for Payment of a  
Living Wage**

The Board of Supervisors of the County of Sonoma, State of California, does ordain as follows:

**Section I. Findings.** In enacting this ordinance the Board of Supervisors makes the following findings:

(a) The health and welfare of all Sonoma County residents is benefited and advances when Sonoma County workers are paid a living wage;

(b) The County awards many contracts to private sector employers to provide services to the County in accordance with those contracts;

(c) According to the U.S. Census Bureau, more than one out of every ten Sonoma County residents lives in poverty. The payment of inadequate wages to those workers tends to negatively affect the quality of services provided to the County and its residents by fostering high turnover and instability in the workplace;

(d) In 2014, the Board of Supervisors set as a priority the development of a systematic approach to addressing income inequality and poverty in Sonoma County, including the evaluation of a living wage ordinance as one component of a balanced strategy for reducing poverty;

(e) The payment of a living wage will increase the ability of low wage workers to attain sustenance, decrease the amount of poverty and reduce the amount of taxpayer-funded services provided in the County of Sonoma;

(f) Some employers who provide contract services to the County do not provide health insurance benefits to their employees. This factor may negatively affect worker performance and the quality of services delivered to the County and its residents, and could result in unwarranted employee absenteeism and negatively impact local and State health programs. These problems may be favorably impacted if employers provide reasonable health insurance benefits to their employees; and

(g) Living wage jobs will decrease poverty, increase consumer income, and invigorate neighborhood businesses.

(h) It is the intent of the Board of Supervisors that the provisions of this ordinance shall apply equally to all entities who enter service contracts with or receive economic development assistance from the County, regardless of whether those entities are operated for profit or as nonprofits. However, to avoid unintended impacts to nonprofit organizations, the

Board of Supervisors intends to phase in application of the living wage requirements to nonprofits.

**Section II. Amendment of Sonoma County Code.** Article XXVI is hereby added to Chapter 2 of the Sonoma County Code to read as follows:

**Article XXVI – Living Wage.**

**Sec. 2-373. – Short title.**

This article shall be known as the County of Sonoma “Living Wage Ordinance.”

**Sec. 2-374. – Purpose.**

The purpose of this article is to implement a policy to help low wage workers earn an hourly wage that is sufficient to live with dignity and to achieve economic self-sufficiency. The county contracts with many businesses and organizations to provide services to the public, and provides financial assistance to a variety of entities for the purpose of promoting economic development and job growth. Such public expenditures should also be spent to set a community economic standard that permits workers to live above the poverty level. The establishment of a living wage ordinance is one component of a more comprehensive strategy to address poverty in Sonoma County. The board of supervisors finds that the use of county funds to provide living wage jobs will decrease poverty, increase consumer income, invigorate neighborhood businesses, and reduce the need for taxpayer-funded social service programs.

  - (ii) Recommendation from county administrator. In addition, the county administrator may independently recommend that the board of supervisors approve waivers, either with or without conditions, to any of the requirements and regulations set forth in this article where any of the following conditions exist:

    - (3) All bidders for the service to be provided would suffer demonstrated economic hardships complying with the requirements of this article and none of the bidders propose that they can comply with those requirements; or

- (iii) Findings. Waivers from the article are disfavored and will be granted only where the balance of competing interests weighs clearly in favor of granting the waiver. The board of supervisors may grant a waiver only upon a finding and determination that:
  - (1) The covered employer seeking the waiver has demonstrated economic hardship and the requested waiver will further the interests of the county in providing training positions which will enable employees to advance into permanent living wage jobs or better; or
  - (2) The covered employer has demonstrated that one of the requisite conditions set forth in subparagraph (ii) of this subsection (d) exists to justify the grant of a waiver.
